

Hot Finished Seamless Steel Tubes Wall Thickness 1.65mm ASTM A106B A312 Gr Tp304l

Our Product Introduction

for more products please visit us on seamless-steeltube.com

Basic Information

Product Specification

- Name: Hot Rolled Seamless Steel Pipe
- Material: Carbon Steel, Stainless Steel, Alloy Steel, Etc
- Length: 1-12m
- Out Diameter: 21.3-609.6mm
- Wall Thickness: 1.65mm-59.54mm
- Standard: ASTM A106/A53/API 5L
- Application: Structure Pipe/Fluid Pipe/Gas Pipe/Oil Pipe/Boiler Pipe
- Surface Treatment: Black Painting/Galvanized/Anti-Corrosion Coating
- Highlight: hot finished seamless steel tubes,
hot rolled steel tube,
seamless steel tube wall thickness 1.65mm

Product Description

ASTM A106B Hot Rolled Seamless Steel Pipe

Seamless carbon steel Pipe is made by hot rolling and piercing a solid billet through it to leave a hollow tube. The pipe is then shaped to size and heat treated to specification. Seamless pipe is very common and considered a higher grade pipe. Applications include high pressure vessels, nozzles and critical applications requiring highest material integrity. Seamless pipe is also pressure tested to ASTM / ASME specification. Grade "B" signifies "seamless". A106 B seamless pipe is easily weldable using various welding procedures. This makes it preferred choice for pressure piping associated with various Oil, Gas and Industrial application. Seamless pipe is also very common in petrochemical industries for carrying high pressure fluid.

Specifications

Hot Rolled Seamless Steel Pipe	
Material	ASTM A106A, ASTM A106B, ASTM A106C, ASTM A179, ASTM A192, ASTM A210
	ASTM A53A, ASTM A53B, ASTM A178C
	10#, 20#, 45#, Q235, Q345, Q195, Q215, Q345C, Q345A
	ST37, ST37-2, DIN 1629 ST35, DIN 1629 ST45, DIN 17175 ST35.8, DIN 17175 DIN 17175
	16Mn, Q345B, T1, T2, T5, T9, T11, T12, T22, T91, T92, P1, P2, P5, P9,
	P11, P12, P22, P91, P92, 15CrMo, Cr5Mo, 10CrMo910, 12CrMo,
Size	13CrMo44, 30CrMo, A333 GR.1, GR.3, GR.6, GR.7, etc
	Outside Diameter: 21.3-609.6mm
Standard	Thickness: 1.65mm-59.54mm
	API 5CT, 5L; ASTM, BS, JIS, DIN
Packing	Steel strip packed. Standard Export Seaworthy Package. Suit for all kinds of transport, or as required
Payment Terms	30% TT deposit and 70% LC the balance
Delivery time	8-15 days upon receipt of 30% deposit.

Hot rolled seamless steel pipes have a wide range of applications across various industries due to their superior strength, durability, and versatility. Here are some common applications of hot rolled seamless steel pipes:

Oil and Gas Industry: Hot rolled seamless steel pipes are extensively used in the oil and gas sector for transporting fluids and gases under high pressure and temperature conditions. They are used in drilling, production, and transportation of oil and gas, including offshore and onshore applications.

Construction and Infrastructure: Hot rolled seamless steel pipes are used in the construction industry for structural purposes. They are commonly used in the construction of buildings, bridges, highways, and other infrastructure projects where high strength and durability are required.

Mechanical and Engineering Applications: Hot rolled seamless steel pipes are widely used in various mechanical and engineering applications. They are used for manufacturing machinery, equipment, and mechanical components that require high strength and resistance to stress and corrosion.

Power Generation: Hot rolled seamless steel pipes are used in power generation plants, including thermal power plants, nuclear power plants, and renewable energy facilities. They are used for transporting steam, water, and other fluids in power generation processes.

Automotive Industry: Hot rolled seamless steel pipes find applications in the automotive industry for manufacturing various components, such as exhaust systems, chassis, and structural parts. They offer excellent formability, strength, and compatibility with welding processes.

Petrochemical Industry: Hot rolled seamless steel pipes are used in the petrochemical industry for transporting chemicals, gases, and fluids in refineries, chemical plants, and petrochemical processing facilities. They are resistant to corrosion and high temperatures, making them suitable for such demanding environments.

Mining and Exploration: Hot rolled seamless steel pipes are used in the mining industry for various applications, including exploration, extraction, and processing of minerals. They are used in pipelines for transporting ores, slurries, and other mining materials.

Manufacturing and Fabrication: Hot rolled seamless steel pipes are utilized in various manufacturing and fabrication processes. They are used for creating structural frameworks, conveyor systems, and other components in industries such as steel fabrication, manufacturing, and industrial machinery.

Hydraulic Systems: Hot rolled seamless steel pipes are used in hydraulic systems for transmitting fluid power. They are used in hydraulic cylinders, hydraulic machinery, and equipment that require high-pressure fluid transmission.

Agriculture and Irrigation: Hot rolled seamless steel pipes are used in the agricultural sector for irrigation systems, water supply networks, and drainage systems. They are suitable for transporting water, fertilizers, and other agricultural fluids.

Why Choose us?

- (1) High quality steel tube with reasonable price.
- (2) Wide excellent experiences with after-sale service.
- (3) Every process will be checked by responsible QC which insures every product's quality.
- (4) Professional packing teams which keep every packing safely.
- (5) Trial order can be done in one week.
- (6) Samples can be provided as your requirements.

FAQ

Q1. Are you a manufacturer or trader?

We are a manufacturer, and we can have our own factory produced many steel products.

Q2. Whether your company supports Trade Assurance order?

Yes, we can (100% product quality protection; 100% on-time shipment protection; 100% payment protection)

Q3. Can we get the some samples? Any charges?

Yes, you can get available samples in our stock. If the samples from new production, we will charge some reasonable cost, but this amount will be deducted from your first order.

Q4. How do we build up business relations with your company?

Send us your requirement which includes size, coating info, parameters, quantity, destination .

Q5. What is the MOQ?

We can accept small orders. Please feel free to contact us, we can meet your requirements.

Q6. What's your advantage?

With high-quality products and efficient customer service, we adhere to the principle of customer first.

Q7. How long is your delivery time?

Delivered within 15 days after receipt of deposit.
